Models for 'Sharing' Data

Ohno-Machado L. To Share or Not To Share: That Is Not the Question. Science Translational Medicine, 2012 4(165)

Clinical Data Network – UC-ReX

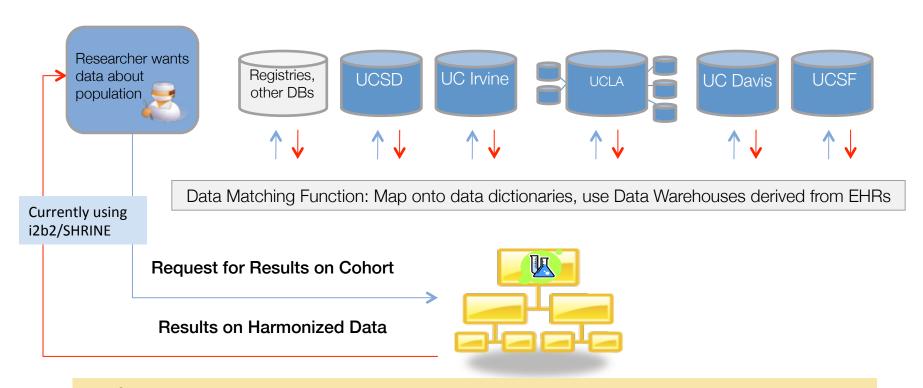

- Clinical Data
 Warehouses from 5
 Medical Centers and
 affiliated institutions
 exchange (>13 million
 patients)
 - » Translational research
 - » Patient safety surveillance
 - » Quality improvement

UC-ReX was formed in 2010

UC-Research eXchange

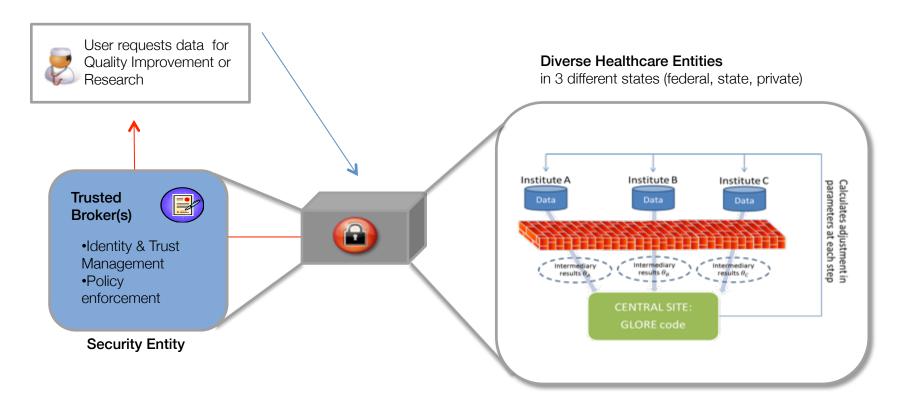

- Currently
 - Count queries (i.e., how many >65yo with afib taking dabigatran had a stroke?)
 - Demographics, meds, labs, diagnoses. Data quality checks
- Future steps
 - Individual-level patient data delivery (recruitment)
 - Cross-institutional analytics

Distributed computing

Scalable National Network for Comparative Effectiveness Research

- Predictive modeling and adjustment for cofounders require lots of data
- Some institutions cannot move data outside their firewalls, we can bring computation to the data

Breaches Affecting 500 or More Individuals

As required by section 13402(e)(4) of the HITECH Act, the Secretary must post a list of breaches of unsecured protected health information affecting 500 or more individuals. These breaches are now posted in a new, more accessible format that allows users to search and sort the posted breaches. Additionally, this new format includes brief summaries of the breach cases that OCR has investigated and closed, as well as the names of private practice providers who have reported breaches of unsecured protected health information to the Secretary. The following breaches have been reported to the Secretary:

Full DataSet CSV format (18 KB) XML format (57 KB)

Select a column head to sort by that column. Select again to reverse the sort order. Select an individual record to display it in full below the table.

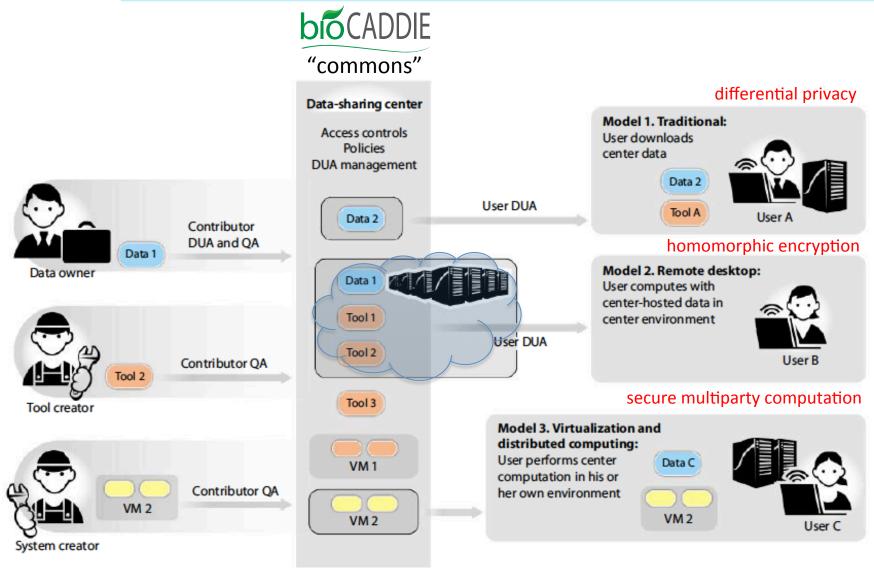

Filter:

556 records showing

Name of Covered Entity	State	Individuals Affected	Date of Breach	Type of Breach	Location of Breached Info
1st response Medical Transpot Corp.	MD	552	06/15/2012- 10/01/2012	Unauthorized Access/Disclosure	Desktop Computer
ABQ HealthPartners	NM	778	2012-12-20	Theft	Laptop
Accendo	AZ	175,350	2011-01-01	Unauthorized Access/Disclosure	Paper
Access Medical Group	PR	7,606	2012-01-11	Theft	Laptop

Plans

- Scale up the infrastructure (cores, disk, network)
 - » the plan was shared with IDI and there are many ways to collaborate and mutually benefit from a common vision
- Serve HIPAA-storage and compute needs of a larger UCSD community
 - » Expand library of workflows/pipelines
 - » FISMA ATO
- Hub infrastructure for large HIPAA-data networks
 - » Continue data extraction services and privacy technology research
